

The following table contains a list of known issues that were not addressed in the 8.01.02 version of I-Suite:

QC #	Description	Solution/Status
COST		
39	<ul style="list-style-type: none">Aircraft costs are rolling to the following day when costs are run.	<ul style="list-style-type: none">Will be addressed in a future release
424	<ul style="list-style-type: none">Subordinate resources with a different check-in date than the parent check-in date will receive the assign date from the parent resource.	<ul style="list-style-type: none">The Cost user must edit the subordinate resource to correct the assign date.
DATA ADMIN		
413	<ul style="list-style-type: none">An error may occur when leaving the incident add/edit screen prior to saving incident data.	<ul style="list-style-type: none">Will be addressed in a future release
47	<ul style="list-style-type: none">An error may occur when attempting to delete a second incident after receiving a message that the first incident cannot be deleted.	<ul style="list-style-type: none">Will be addressed in a future release
DATABASE ADMIN		
387	<ul style="list-style-type: none">When 5 or more databases are attached, and a repository file is attempted on the 5th database in the list, the "Select incident to be used in the file name" box on the Data Export Screen does not display incidents.	<ul style="list-style-type: none">To correct the issue, select another database in the drop down list, then re-select the previous database. Incidents should now display correctly.
433	<ul style="list-style-type: none">Receive a Bulk Insert Data Conversion error when Kind description field is too long in the ROSS import file.	<ul style="list-style-type: none">Contact the I-Suite helpdesk for assistance. ORIf you are familiar with editing the text file, open the file, locate the affected record, edit the description and import the file again.

Known Issues

QC #	Description	Solution/Status
398	<ul style="list-style-type: none"> An error message will display when attempting to change the Admin Password when not logged into a database. 	<ul style="list-style-type: none"> Make sure you are logged into a database before attempting to change the Admin Password
DEMOB		
41	<ul style="list-style-type: none"> Tentative and Actual Release Notes do not display correctly in the grid. 	<ul style="list-style-type: none"> Will be addressed in a future release
GENERAL		
434	<ul style="list-style-type: none"> If the user deletes their .ini file with the application open, the grids disappear. 	<ul style="list-style-type: none"> To correct the issue, close the I-Suite application and re-launch I-Suite. This will recreate the .ini file.
428	<ul style="list-style-type: none"> When the reports module is opened from either DB Admin or Data Admin modules, the "Incident" dropdown box and "Manage All Incidents as One" checkbox do not display. 	<ul style="list-style-type: none"> Avoid accessing reports from these modules
25	<ul style="list-style-type: none"> Some date fields will not filter correctly in the grid. 	<ul style="list-style-type: none"> Will be addressed in a future release
INJURY/ ILLNESS		
435	<ul style="list-style-type: none"> When a resource is selected in Injury/Illness and the user minimizes I-Suite or switches to another application, when they return to I-Suite, the Injury radio button is automatically selected. 	<ul style="list-style-type: none"> Will be addressed in a future release
RESOURCES		
396	<ul style="list-style-type: none"> Application may terminate when filtering by name in the filter bar. 	<ul style="list-style-type: none"> Will be addressed in a future release
69	<ul style="list-style-type: none"> Cannot move columns in the resources grid using the drag and drop method. 	<ul style="list-style-type: none"> Will be addressed in a future release
SUPPLY		
235/24	<ul style="list-style-type: none"> Clicking the Unselect Resource button is not functioning correctly. While it appears to de-select the resources, issues will still be applied to the previously selected resource even if a Location is selected. 	<ul style="list-style-type: none"> Will be addressed in a future release
14	<ul style="list-style-type: none"> When opening the Supply module from another module, two application errors may occur. 	<ul style="list-style-type: none"> These errors are not serious, and can be disregarded

Known Issues

QC #	Description	Solution/Status
9	<ul style="list-style-type: none"> An application error occurs when moving from the “Issues” screen to the “Issue Returns” screen and back to the “Issues” screen when a subordinate resource is selected in the grid 	<ul style="list-style-type: none"> Will be addressed in a future release
29	<ul style="list-style-type: none"> There currently is no requirement to enforce unique property numbers. Therefore, the same property number can be added or issued several times. 	<ul style="list-style-type: none"> Will be addressed in a future release
TIME		
3	<ul style="list-style-type: none"> When there are multiple Admin Offices and the user Deletes one of them, the top office in the grid is selected and the input boxes are populated as if it were in Edit Mode. 	<ul style="list-style-type: none"> If edits are necessary close the Admin Office screen and reopen.
46	<ul style="list-style-type: none"> OF286 Guarantee calculations: It is possible to have a guarantee calculate for the same day twice. Once for one accounting code and once for another. 	<ul style="list-style-type: none"> This needs to be monitored and mitigated by the user.
38	<ul style="list-style-type: none"> Error deleting posted time when the Resource Name field has been removed from the grid. 	<ul style="list-style-type: none"> The Resource Name field must be displayed in the grid.
48	<ul style="list-style-type: none"> When posting time with “Manage All Incidents as One” selected the incident name may display in the Accounting Code drop down box. 	<ul style="list-style-type: none"> Click the Accounting Code drop down box and select the correct code
21	<ul style="list-style-type: none"> If you enter either a Start Time or a Stop Time that includes minutes that are 60 or larger (e.g. 1660), an application error occurs: 	<ul style="list-style-type: none"> Will be addressed in a future release
53	<ul style="list-style-type: none"> When both rate types are selected and there is a “Daily” Special rate, the Start Date label is being cut off on the Contractor Post tab. 	<ul style="list-style-type: none"> Will be addressed in a future release
199	<ul style="list-style-type: none"> Setting a special of DAY OFF in grid does not clear the times. - When the user edits the special for a posted time in the grid, the edit does not cause the start and stop time to clear. 	<ul style="list-style-type: none"> Recommend delete the posting and repost with the correct special code

Known Issues

QC #	Description	Solution/Status
57	<ul style="list-style-type: none"> On the contractor add/edit screen an application error occurs when an apostrophe is entered in the city field. 	<ul style="list-style-type: none"> Will be addressed in a future release
20	<ul style="list-style-type: none"> Entering an invalid date in the excess of standard hours report will cause the application to terminate. 	<ul style="list-style-type: none"> Will be addressed in a future release
26	<ul style="list-style-type: none"> When copying and pasting a Time Postings from one crew member to another that has a "Special" code of GUAR, COP or Day OFF will not copy correctly. A message indicating that the time spans midnight is displayed. It creates two rows of data, the first has a date of the copied row and a stop time of 2400 but no start time, the special field is blank. The second row is dated the following day and has a start time of 00:01 with no stop time; the special field is also blank. 	<ul style="list-style-type: none"> Do not copy and paste Crew time postings with a "Special" code of GUAR, COP or DAY OFF
16	<ul style="list-style-type: none"> Equipment Management Report is only displaying 3 resources on the first page, subsequent pages format correctly. 	<ul style="list-style-type: none"> Will be addressed in a future release
376	<ul style="list-style-type: none"> When selecting time reports, the appropriate button on the reports screen may not be selected. 	<ul style="list-style-type: none"> Will be addressed in a future release
426	<ul style="list-style-type: none"> Resources will not display on the work/rest report when Manage All Incidents as One is selected. 	<ul style="list-style-type: none"> Will be addressed in a future release
423	<ul style="list-style-type: none"> When selecting "Manage All Incidents as One" with the reports screen open, some reports will not list resources from all incidents. 	<ul style="list-style-type: none"> Do not select "Manage All Incidents as One" with the reports screen open.
34	<ul style="list-style-type: none"> If a contractor is saved without an agreement, the Contractor name will not show in the resources grid when the contractor column is displayed. 	<ul style="list-style-type: none"> Will be addressed in a future release
