Subject: I-Suite Application Version 12.01.00

Version 12.01.00 of the I-Suite Application is now available for download at <http://isuite.nwcg.gov>.

The primary focus of this release is to allow I-Suite to run on Windows 7 and Windows Server operating systems as a standard user and to upgrade the installation software to support both 32 and 64 bit operating systems. Module highlights include adding safety nets to check for invalid dates in Check-in and Demob, correct Time contract guarantee calculations, and improve Supply Module functionality.

The Release Notes are posted on the I-Suite Web Site.

The Full Server, Full Client, Server Update and Client Update installs can be installed mid-incident. Run a backup of your database prior to updating I-Suite.

System Administrative privileges **are** required to properly install all I-Suite versions. A reboot must be performed after the installation is finished and re-login with System Administration privileges for the install to complete.

Refer to the I-Suite Install Quick Reference Card for setup instructions:
http://isuite.nwcg.gov/User_Support/index.html

For further assistance with the installation, call the I-Suite Helpdesk at (866) 224-7677.
