Important Things to Know Prior to Installing I-Suite Version 14.01.03 Full Server

- **IMPORTANT Please read before installing!!:**
 - DO NOT install version 14.01.03 Full Server mid-incident if Social Security Numbers have been entered for Casual (AD) employees.
 - Any database from I-Suite version 13.01.XX or older that is currently attached or attached in the future will update to include the new ECI field.
 - Update all Servers and Clients prior to accessing a database. Version control is critical for the transition from SSN to ECI.
- System Administrative privileges **are** required to install the application. You must reboot after the installation is finished and re-login with System Administrative privileges for the install to complete.

Note: For installation on Forest Service agency machines refer to the agency's PowerBroker installation procedures located on the Forest Service CIO home page.

- Update the Server Machine prior to updating the Client Machines
- Installs on both 32 and 64 bit systems.
- The new database version is 14.01.03. Previous Version 13 and Version 14 databases will not update to the current version.
- Close the I-Suite application and all related windows on the local computer prior to uninstalling previous versions of I-Suite.
- Install the same version of I-Suite on all Server and Client computers.

Important Things to Know Prior to Installing I-Suite Version 14.01.03 Full Client

- **IMPORTANT Please read before installing!!:**
