**Note:** *Has not been tested on Windows Vista or Windows XP 64 Bit operating systems.*

- This patch **must** be installed on all computers running I-Suite version 14.01.00.
- This patch can be applied to a server or client installation of I-Suite.
- Recommend updating the server machine prior to updating the clients.
- System Administrative privileges are required to properly install this patch.
- This patch can be installed mid-incident.
- For both Server and Client computers, close the I-Suite application and all related windows on the local computer before installing this patch.
- It is recommended that a back-up of the I-Suite database be made prior to any application updates.
- The installation of I-Suite Patch 14-1 will replace the ISuite.exe file.
- Opening the I-Suite application on the server computer, attaching a database, or creating a new database will update the database to version 14.01.01.

Please visit the I-Suite Web site for additional information (<http://isuite.nwccg.gov>).

---
